COVID-19: Polarization and the Pandemic
April 3, 2020
More in Common and YouGov
N= 2,000

Key Findings:

- 1. Fears for America’s health and of an economic depression are widespread.**
 - 70% are scared about the American people’s health, a larger share than are scared about their own family’s health (63%).
 - Fully 77% of Americans now believe that an “economic depression” is more likely than not (probability at 5 or higher out of 10, where 10 is ‘extremely likely’). Partisan differences exist, with more Democrats (88%) than Republicans (62%) believing it likely.

- 2. However, the shared experience of COVID-19 is increasing Americans’ perception of unity. These represent significant shifts from previous waves of research conducted by More in Common, for instance:**
 - Ninety percent of Americans believe that “we’re all in it together”, compared to just 63% in the fall of 2018.
 - The total share of Americans who describe the country as unified has grown from 4% in 2018 to 32% today, while the percentage of Americans who regard the country as “very divided” has dropped from 62% to just 22%.
 - Almost half of Americans (46%) say that America now feels more united than before the pandemic and 82% say that we have “more in common than what divides us”.

- 3. Americans of all backgrounds see workers on the front line of the pandemic as “heroes”.**
 - Most believe (84%) that our doctors, nurses, and hospital staff “deserve to be considered as heroes” and similar numbers (71%) express the same toward police, firefighters, and emergency medical teams.
 - A majority (83%) of Americans are “more grateful” to medical professionals and 76% are “more grateful” for grocery store staff.

- 4. But the Wings are not experiencing the same pandemic. While Progressive Activists are anxious and pessimistic, Devoted Conservatives are significantly less concerned. Tensions around media and national identity also persist.**
 - Progressive Activists are three times as likely (59%) as Devoted Conservatives (17%) to think it is “likely” that they will “become ill with the coronavirus” and twice as likely (80%) as Devoted Conservatives (40%) to say that it’s “likely” that someone they know “becomes ill with the coronavirus”.
 - Democrats (52%), Progressive Activists (52%), and Traditional Liberals (49%) express far more gratitude for journalists and reporters than do Republicans (12%) and Devoted Conservatives (1%). Conversely, two-thirds of Traditional Conservatives (67%) and Devoted Conservatives (65%) are feeling more grateful to live in the United States, while only 4% of Progressive Activists say the same.

Key Terminology from *Hidden Tribes: A Study of America's Polarized Landscape* (2018):

- **Exhausted Majority** – two-thirds of Americans who are fed up with political polarization, often forgotten in the public discourse, flexible in their views, and believe we can find common ground.
- **Wings** - one-third of Americans from the left and right ends of the political spectrum who are ideologically rigid, politically active, and hold strong negative views of their opponents.
- **Progressive Activists (8% of US population)** are deeply concerned with issues concerning equity, fairness, and America's direction today. They tend to be more secular, cosmopolitan, and highly engaged with social media.
- **Traditional Liberals (11%)** tend to be cautious, rational, and idealistic. They value tolerance and compromise. They place great faith in institutions.
- **Passive Liberals (15%)** tend to feel isolated from their communities. They are insecure in their beliefs and try to avoid political conversations. They have a fatalistic view of politics and feel that the circumstances of their lives are beyond their control.
- **The Politically Disengaged (26%)** are untrusting, suspicious about external threats, conspiratorially minded, and pessimistic about progress. They tend to be patriotic yet detached from politics.
- **Moderates (15%)** are engaged in their communities, well informed, and civic-minded. Their faith is often an important part of their lives. They shy away from extremism of any sort.
- **Traditional Conservatives (19%)** tend to be religious, patriotic, and highly moralistic. They believe deeply in personal responsibility and self-reliance.
- **Devoted Conservatives (6%)** are deeply engaged with politics and hold strident, uncompromising views. They feel that America is embattled, and they perceive themselves as the last defenders of traditional values that are under threat.

Methodology Description

YouGov interviewed 2,396 respondents from March 25 to 30, 2020 who were then matched down to a sample of 2,000 to produce the final dataset. Recontact cases from Hidden Tribes 2018 and fresh sample were matched and weighted separately into final sample sizes of 1,000 each.

The respondents were matched to a sampling frame on gender, age, race, and education. The frame was constructed by stratified sampling from the citizen portion of the 2017 American Community Survey (ACS) 1-year sample with selection within strata by weighted sampling with replacements (using the person weights on the public use file). The matched cases were weighted to the sampling frame using propensity scores. The matched cases and the frame were combined and a logistic regression was estimated for inclusion in the frame. The propensity score function included age, gender, race/ethnicity, years of education, and region. The propensity scores were grouped into deciles of the estimated propensity score in the frame and post-stratified according to these deciles. The weights were then post-stratified on 2016 Presidential vote choice, and a four-way stratification of gender, age (4-categories), race (4-categories), and education (4-categories), to produce the final weight.

The margin of error (adjusted for weighting) is 2.6% and higher for subgroups.

Representation	Gender			Age				Race				Region			
	US Avg.	Male	Female	18-29	30-44	45-64	65+	White	Black	Hispanic	Other	North-east	Midwest	South	West

*Showing percentages of the 1,000 Hidden Tribes recontact sample

This report also provides comparative data from two previous studies: *Hidden Tribes: A Study of Americans Polarized Landscape* (N-8,000; 2018) and *Hidden Tribes: Midterm Update* (N-2,100; 2018). The full reports and methodological details of each can be found at: www.moreincommon.com/publications.

Tracking Questions: Shifts from Previous Studies

- A. How unified or divided does the United States feel today?
- B. Which do you agree with more? **[We're all in it together / It's everyone for themselves]**
- C. I feel like we can't count on the people around as much as we used to.
- D. Which do you agree with more: **[...Differences between Americans are too big/ ...Not so big that we cannot come together]**
- E. Which do you agree with more: **[...Stick to beliefs and fight / ...Listen to others and compromise]**

COVID-19: Polarization and the Pandemic

- 1. Do you approve or disapprove of the way **President Trump is doing his job**?
- 2. Do you approve or disapprove of the way **President Trump is handling the coronavirus pandemic** in the United States?
- 3. When thinking about the coronavirus, how **scared or calm** are you about...? **[The American economy; Your personal health; etc.]**
- 4. If you had to predict today, how **likely or unlikely** do the following seem to you? **[US enters a depression; Food shortages, etc.]**
- 5. If you had to predict today, how **likely or unlikely** do the following seem to you? **[You get fired; You get ill with coronavirus, etc.]**
- 6. Since the coronavirus crisis, how has your **attitude changed** towards the following professionals, if at all? **[Doctors; Grocery staff, etc.]**
- 7. Which of the following professionals do you think deserve to be considered 'heroes', if any? **[Doctors; Grocery staff, etc.]**
- 8. Since the coronavirus pandemic emerged, how has your attitude changed towards **living in the United States**, if at all?
- 9. Since the coronavirus pandemic emerged, how has your attitude changed towards **living in your town or city**, if at all?
- 10. Since the coronavirus pandemic emerged, how has your attitude changed towards **the following groups**, if at all?
- 11. Since the coronavirus pandemic, how has your attitude changed towards the **divisions between the following groups**, if at all?
- 12. In this pandemic, there are many recommendations and requirements that are being shared with Americans. What is your view of the following actions? **[Social distancing; Identifying misinformation, etc.]**
- 13. Which do you agree with more: **[We're all in it together / It's everyone for themselves]**
- 14. Which do you agree with more: **[...Stick to beliefs and fight / ...Listen to others and compromise]**
- 15. Which do you agree with more: **[...Differences between Americans are too big/ ...Not so big that we cannot come together]**
- 16. Do you agree or disagree with the following statements? **[...can't count on people;...more in common than what divides us]**
- 17. How **unified or divided** does the United States feel today?
- 18. Since the coronavirus pandemic emerged, how have your **perceptions of America** changed, if at all?
- 19. Please indicate how much you feel you have in **common with individuals** belonging to each of the groups below.
- 20. Please indicate your agreement with the following statements: **[...government responsibility / ...Americans' responsibility]**
- 21. As the world faces the coronavirus pandemic, do you agree or disagree with the following statements about **US political leadership**?

21. As the world faces the coronavirus pandemic, do you agree or disagree with the following statements about US political leadership?
Please enter a number between 0 and 100, where 0 means completely disagree and 100 means completely agree.

Mean	Gender		Age				Race				Region				
	US Avg.	Male	Female	18-29	30-44	45-64	65+	White	Black	Hispanic	Other	North-east	Midwest	South	West
Our political leaders should stay calm, report the facts, and be clear about their decisions.	90	90	90	84	88	92	94	91	88	87	89	88	90	90	91
More than ever, Democrats and Republicans should be working with each other to help the American people through this pandemic.	89	89	90	82	87	91	94	89	90	88	86	88	88	90	89
Our leaders should use this moment to unify the American people to set aside differences and work towards everyone's safety and wellbeing.	88	87	89	81	86	90	93	89	88	87	85	86	87	89	89
This moment shows us that we must trust medicine and science to help us understand the world and tackle the challenges we face.	83	83	82	80	81	82	87	83	81	83	82	84	82	81	84
The United States should be playing a role of global leadership, providing expertise and aid to the other countries where necessary.	70	71	70	62	70	71	76	70	74	71	72	71	69	70	73
In this moment, we should define the government's responsibilities and every individual American's responsibilities: both play a key part in making our future better.	82	82	83	76	79	84	88	83	84	82	77	82	82	83	81
